

Olam Agri (OA) Grievance Log – CLOSED Cases

Updated as 31st July 2024

Contents

OA Grievance Log – CLOSED Cases	1
CLOSED CASES – Olam’s Direct Suppliers	1
CLOSED CASES - Olam’s Indirect Suppliers	19
CLOSED CASES – Olam’s Operations	74

CLOSED CASES – Olam’s Direct Suppliers

The closed cases listed here also includes closed cases with Olam Group Limited including Olam Palm Gabon (OPG). As part of Olam Group's restructuring, we are separately listing Grievance logs for Olam Agri and Olam Palm Gabon (OPG). The closed cases listed here include Olam Palm Gabon (OPG) which is under Olam Group.

Going forward, all the grievance cases related to OPG will be listed in separate documents on the Olam Group website

<https://www.olamgroup.com/sustainability/grievance.html>

D24	Feb 2023	Sarawak Oil Palms Berhad	GIS imagery shows that between January 2022 and December 2022 there was a total of approximately 88 ha of GLAD-HCS forest alerts in the Linau Sinar Estate concession and approximately 143 ha of GLAD-HCS forest alerts in the Kenaban Estate concession.	Mighty Earth 41	<p>March 2023 SPOB provided clarification stated that Shin Yang Oil Palms Division had fully stopped land clearing since December 2020 for oil palm planting. The deforestation alerts detected are attributed to logging activities which were conducted by Shin Yang's Tree Planting Operation Management with legal approved permits.</p> <p>Detail clarification can be referred to SPOB grievance list https://www.sop.com.my/sustainability/grievance_list_dynamic.php</p>	Closed
D23	June 2022	Olam Palm Gabon	<i>On April 12th, Community in Iroungou reported to internal CRS team about their concerns on water quality in the local river</i>	OPG’s Corporate, Responsibility and Sustainability.	<p>December 2022 The river sampling has been conducted by Gabon water company as requested by local authorities. The results confirm the river water</p>	Closed

					<p>quality has returned to normal. At our level, we assume that this chapter is closed. We continue to work on corrective actions.</p> <p>October 2022 Local authorities requested to contact a third party selected by them to confirm the resumption of the river water quality. They selected the Gabon water company (SEEG) to conduct that mission. We received and validated the quotation from SEEG and the sampling and testing is expected to be completed by end of this month (October) 2022. Once the resumption of the river quality is confirmed, this Iroungou chapter should be closed.</p> <p>August 2022 The river water has returned to the normal quality with all relevant quality parameters being met since end June 2022.</p> <p>Many actions have been taken at the mill level (source of the pollution) to prevent future occurrences. We constructed 3 additional effluents ponds and have commissioned the land application system to reuse the mill effluents as organic fertilizer in plantation.</p> <p>An overall corrective action was established and submitted to the relevant administrations and that action plan is currently 95% completed.</p> <p>June 2022 An immediate investigation was conducted by CRS Team. They identified that there was an accidental effluent overflow from the nearby palm processing mill into the mentioned river. OPG provided tanks of clean water to the community and have repaired two existing borewells and built a further 2 modern wells to ensure the community has access to alternative water sources. OPG is closely working with the community of Iroungou to ensure it receives the necessary support, including compensation for any potential financial losses related to fishing resulting from this incident.</p> <p>The contaminated area has been emptied and cleaned and the river water has returned to its normal quality. They are working with the DGEPN (Environment Directorate of Gabon), the Cabinet Ministry and</p>

					a coalition of local environmental NGOs to implement remediation measures.	
D22	May 2022	Sumber Tani Agung	Satellite imagery shows that between April 2021 and March 2022 a total of ~340 hectares of forest (indicative HCS) was cleared in the PT Sawit Sukses Sejati concessions, based on the HGU published boundaries.	Mighty Earth Rapid Response 39	<p>STA has stopped sourcing from PT Sawit Sukses Sejati since May 2022.</p> <p>June 2022 STA is not aware of such allegations and have requested their Medan sourcing Dept to do a thorough investigation on this matter. Medan HQ have replied that PT Sawit Sukses Sejati only took over the plantation from PT. Anugerah Langkat Makmur in Dec 2020 and after taking over, they built a Mill in which the mill started operation in Jan 2022. There is no shipment of CPO from PT Sumber Tani Agung since Aug 2021. According to PT Sumber Tani Agung, the Mills of PT Sawit Sukses Sejati have stopped operation since Feb 2022 to 17 May 2022 due to operational issues and our supplier has not purchase any FFB from PT Sawit Sukses Sejati since . Our supplier will not source for FFB from PT Sawit Sukses Sejati until they have resolved their sustainability issues.</p> <p>May 2022 Olam has reached out to STA regarding the allegations.</p>	Closed
D20	Oct 2021	Astra Agro Lestari PT Agrocourt Resources TBK, Indirect Wilmar Musim Mas	Deforestation: Report 36: 8 ha Report 34: 5 ha Report 33: 100 ha tree cover loss	Mighty Earth Rapid Response 33, 34, 36	<p>The land clearing at PT Agincourt Resources is not related to oil palm development. PT AAL and PT Agincourt Resources (United Tractor) are different companies and operate independently as separate legal entities.</p> <p>March 2022 Still waiting for Astra's response on this. Will follow up closely on the development.</p> <p>Oct 2021 Olam's supply chain is covered by both our Palm Policy as well as our Living Landscape Policy. Hence we expect our suppliers to apply our no deforestation commitment across the other business. We have reached out directly to Astra on this.</p>	Closed

					<p>May 2022 Olam has reached out to Sime Darby for updates on the results of internal audit. Currently awaiting Sime Darby's response.</p> <p>April 2022 Sime Darby is currently undertaking internal audits with independent organisations and will be ready to submit the report by end-April. Once the report is made publicly available, or more details are available online, Olam will update the status of this grievance.</p> <p>March 2022 ISF - 28th January 2022 SDP has informed that the WRO has been converted into a "Finding" by the USCBP. SDP has released a statement via press release in response to the notice and will continue to cooperate with the USCBP to resolve the issues.</p> <p>https://sime-darby-plantation.com/sime-darby-plantation-berhad-responds-to-uscbp-general-notice-of-forced-labour-finding/</p> <p>ISF continues to engage SDP for the latest updates and will be monitoring the case closely.</p> <p>February 2022 Sime Darby sent out a public statement on 15/02/22 announcing improvements, changes and new measures, following USCBP issuing its 'Findings' on 31/01/22. https://sime-darby-plantation.com/sime-darby-plantation-institutes-sweeping-changes-in-governance-and-operations/</p> <p>January 2022 On 30 December 2020, pursuant to 19 U.S.C. 1307, CBP issued a Withhold Release Order ("WRO") against SDP, its subsidiaries, joint ventures, and affiliates based on a reasonable indication of forced labor thereby prohibiting the import of SDP produced palm oil and palm oil products, and authorizing the detention of these products at all U.S. Ports.</p>	

No	Date	Direct Supplier	Allegations	Source	Action Taken & Outcome	Status
					<p>On 31 December 2020, SDP responded stating that the WRO did not provide enough information to address the underlying allegations. The statement furthered that SDP is committed to combatting forced labor and had previously engaged PricewaterhouseCoopers after it became aware of Liberty Shared's Petition to CBP</p> <p>https://sime-darbyplantation.com/sime-darby-plantation-berhad-responds-to-uscbp-general-notice-of-forced-labour-finding/</p> <p>November 2021 FGV Press Release - 16 November 2021 FGV has appointed ELEVATE as the independent auditing firm to conduct an assessment of FGV's operations against the 11 International Labour Organization (ILO) Indicators of Forced Labour. The assessment is part of FGV's efforts towards petitioning for the revocation of the WRO by the CBP. FGV is in discussions with their US-based legal counsel and Elevate on the audit design and plan, which is expected to begin in November 2021. Press Statement - 30 November 2021</p> <p>Sept 2021 ISF - The evaluation by Impactt Ltd was expected to be completed in June 2021. On 15th July 2021, SDP has dissolved the Commission after the resignation of Andy Hall and Professor Justine Nolan. Impactt Ltd, however, will commit to completing the assessment but progress has been delayed due to continuing Covid-19 restrictions. Internal operations to address the issue remain active as SDP is using their Human Rights Charter and ILO indicators to look into several areas of potential improvement. ISF continues to engage SDP for the latest updates and will be monitoring the case closely.</p> <p>July 2021 SD has updated us that the assessments have been delayed due to Covid.</p> <p>Mar 2021 SD has appointed Impactt Ltd to conduct a third party labour assessment based on the ILO's 11 indicators of force labour of its</p>

					<ul style="list-style-type: none"> • Bunge Palm Bunge Loders Croklaan • Musimas Grievance Case - Musim Mas <p>October 2022 Wilmar provides response as follow: AA Sawit not a supplier to Wilmar. Our supplier, Jernih Kemboja, however is implicated due to their association with AA Sawit. Wilmar immediately initiated engagement with Jernih Kemboja when allegations of deforestation at PTD 4882, 4085, 4963, 4118, 4177 and 4121 by AA Sawit was brought to our attention in July 2022. A field investigation was carried in August 2022 to verify the allegations. Our field investigation as well as LUCA analysis on their concession maps thereafter has confirmed that there is non-compliance to the No Deforestation commitment to the NDPE Policy. Wilmar last purchase from this supplier was in September 2022. In the meantime, Wilmar is continuing engagement with Jernih Kemboja and will be guiding them to meet all the requirements as stipulated in our re-entry criteria.</p> <p>August 2022 Olam has reached out to SimeDarby, Wilmar, Musimas & FGV for the clarification of Rapid Response 40 and follow up from previous engagement.</p> <p>SimeDarby SimeDarby confirmed that Jernih Kemboja does not enter our supply to Olam. Jernih Kemboja POM is in our supply chain indirectly (mainly CPKO purchases) via third-party traders with relevant NDPE policies and commitments. Further investigation on the recent allegations raised in ME RRR #40 and engagement with AA Sawit is currently still underway by our third-party trader.</p> <p>Wilmar</p>

Date	Indirect Supplier	Direct Supplier	Allegations	Source	Action Taken & Outcomes
					<p>Still waiting for Wilmar's response</p> <p>Musimas <i>Musimas last transaction with Jernih Kemboja was in Q3 2021. Following the earlier engagement, the company has issued an SWO and is engaging a third party to assess its development plans.</i></p> <p>Jernih Kemboja Sdn Bhd informed that their supplier management will undertake the following activities over the coming six months:</p> <ol style="list-style-type: none"> 1. Implemented a stop-work-order on all existing and current on-going new developments, including PTD 1815 project. 2. They are engaging independent third parties to conduct a Group Review on all development areas to understand the potential liability of their new developments. 3. They will be guided by the recommendations from these independent projects to support suitable recovery project <p>June 2022 Olam has reached out to Sime Darby, Wilmar, Bunge, Musimas, Mewah and FGV. Further investigation and engagement with AA Sawit is still underway</p> <p>May 2022 Olam has reached out to Sime Darby, Wilmar, Bunge, Musimas, Mewah and FGV. In general, the outcome of the investigation is aligned with the reporting in Rapid Response report 38 on AA Sawit's role in PTD 1815, where they have been appointed to manage the development of PTD 1815. AA</p>

Date	Indirect Supplier	Direct Supplier	Allegations	Source	Action Taken & Outcomes
					<p>Sawit has also confirmed that they are not a shareholder of PTD 1815. They have immediately ceased their operation at PTD 1815 when the case was brought to their attention a few months ago.</p> <ol style="list-style-type: none"> 1. Mewah: Mewah has suspended trades with Jernih Kemboja to further facilitate the investigation. 2. Sime Darby: Jernih Kemboja POM is mainly in SDP's indirect CPKO supply chain. Further investigation and engagement with AA Sawit are currently still underway. 3. Wilmar: AA Sawit is not a supplier to Wilmar. Wilmar's supplier, Jernih Kemboja, however is associated with AA Sawit at group level due to their shareholding in AA Sawit. Further investigation and engagement with AA Sawit are currently still underway. 4. Musimas: Musim Mas does not have direct business relationship with AA Sawit Sdn. Bhd. Hence the engagement was carried out through Jernih Kemboja Sdn Bhd and FGV as the direct suppliers of AA Sawit Sdn. Bhd. Further investigation and engagement with AA Sawit are currently still underway. 5. FGV: FGV has stopped sourcing FFB from AA Sawit Berhad. Nonetheless, as part of FGV's efforts to promote sustainable palm oil production across the supply chain, they have expressed their readiness to engage with AA Sawit Sdn Bhd to discuss next steps towards ensuring their compliance with FGV's NDPE commitments.

	Date	Indirect Supplier	Direct Supplier	Allegations	Source	Action Taken & Outcomes	
						<p>April 2022 Bunge has reached out to Jernih Kemboja and its Director for clarification. Additionally, Bunge has communicated its expectations on sustainable development of new oil palm development that is aligned with NDPE Policy commitments. Bunge has requested that Jernih Kemboja impose a Stop Work Order on the development of PTD 1815 by its affiliate company AA Sawit, and to conduct an integrated HCV-HCS assessment. Bunge has communicated expectations that AA Sawit acknowledge and remedy the liability of non-conformance clearing within PTD 1814 through a credible and robust recovery plan. Due to the sensitive nature of the site undergoing development, Bunge has instituted a suspension on all trading activities with Jernih Kemboja.</p> <p>March 2022 We are currently engaging with Bunge and awaiting for updates.</p>	
ID80	Oct 2021	Yayasan Sabah	Wilmar	ME 36: 91 ha deforestation	Mighty Earth Rapid Response 36	<p>Based on below investigation Wilmar is considered this grievance case as ineligible case</p> <p>Wilmar initiated an investigation on the Innoprise case since August 2020, and the investigation concluded that the land development was not related to their oil palm operations. Their land development activities were related to timber tree planting, mainly the timber species Laran (<i>Neolamarckia cadamba</i>). During the course of investigation, Innoprise has submitted comprehensive documents for our review, including:</p> <ul style="list-style-type: none"> • Detailed concession maps showing planting blocks, in shapefile format. • The Sabah Forestry Department (SFD) approved Annual Work Plans (this is a formal document required to be submitted to SFD annually and shows the planned work in relation to both their timber and oil palm operations) • Innoprise's field visit reports, including ground and drone photos of random selected points to show 	Closed

ID32	13 th Sept 2018	Prosper Group – linked to Bewani Oil Palm Plantations Limited (BOPPL)	IOI Bunge LC ISF Wilmar	Alleged clearance of an estimated 25,000 hectares of forests including an estimated 12,000 ha in the last four years since obtaining a lease for the palm oil development project in ow2010.	<p>The Chain: Bewani Oil Palm Plantation Divestment Increases Risks of Continued Deforestation in Palm Oil Supply Chains</p> <p>communicated and logged that it has not sourced from this company since 2018.</p> <p>July 2020 Olam has reviewed this supplier and has lifted its suspension of this supplier (subject to onboarding & fulfilling of our supplier requirements for direct purchase if any) in light of the divestment made and commitment to undertake the liability for non-compliant clearing. Our direct suppliers have also lifted the suspension of Prosper.</p> <p>May 2020 We received supplies from Prosper through IOI which had received them from Wilmar and Mewah. IOI has not bought from Prosper but has lifted its suspension since Mar 2020 following the progress made by Prosper.</p> <p>We note that progress made by Prosper Group/Tee Family namely:</p> <ol style="list-style-type: none"> 1. Prosper has divested from Bewani, but conducted an in house land use change analysis and committed to undertake liability for non-compliant clearing. 2. NDPE Policy (April 2019) 3. Partnership with Earthworm Foundation since June 2019. 4. Recovery project with GEC. <p>Apr 2019 Bunge’s investigation has found direct family affiliations to both Prosper/Far east Holdings and the Bewani Group.</p> <p>We engaged with our direct suppliers (Bunge and ISF) as a result of our due diligence. Following this engagement and their investigations undertaken, Bunge and ISF have suspended Prosper Group. Bunge has suspended Prosper in Oct 2018, suspension lifted since Mar 2020 based on its progress.</p>

ID28	24 th Jan 2020	Bumitama Group PT Andalan Sukses Makmur	Wilmar	Deforestation – 129 ha	Mighty Earth Rapid Response 23	<p>Mar 2020 Wilmar stated that Bumitama conducted ground checking and verified that this is not a result of land clearing but a fire scar from forest fires that occurred in the area in September 2019. These areas are owned by the local community and thus enclaved from the management of the company are a part of the set-aside areas of 2,500 hectares (about 36% of PT ASMR’s permit) that were excluded from the company plantation development plans and were set-aside for conservation based on the rapid HCS assessment and peat delineation study conducted in April 2014 (refer to 12 September 2014 announcement).</p> <p>The fires were tackled by Bumitama’s fire-response personnel. Two teams of 24 men were dispatched to the site,. However, the forest terrain, lack of access roads and peat soil made it very difficult extinguish. Once put out, both incidents were recorded and reported accordingly to relevant local authorities, as well as to the RSPO under the hotspot monitoring scheme.</p>	Monitoring

O2	20 th Sept 2019	Olam Palm Gabon	<p>Report and petition from World Rainforest Movement and Muyissi Environment</p> <p>The petition makes three allegations:</p> <ol style="list-style-type: none"> 1) Olam has deforested within traditional areas of the communities of Nanga and Ferra to create palm plantations; 2) We have expanded into the village lands on the left bank of the Dola river against the consent of the communities; 3) We have not fulfilled our promises to provide support to these villages. 	<p>Self-registration by Olam</p> <p>Mar 2020 Mongabay</p> <p>Apr 2020 Food Navigator</p>	<ol style="list-style-type: none"> 1. There has been zero deforestation of lands around Nanga and Ferra. The area is predominantly grassland and all forests and other high conservation value (HCV) lands (including HCV savannahs and wetlands) are being protected as part of our commitment to conserve all HCV areas in our palm concessions. 2. There has been no "land grabbing" by Olam, either in Nanga and Ferra or elsewhere in Gabon. Both communities participated in a fully inclusive process to ensure their Free, Prior and Informed Consent (FPIC) to plans for agricultural development in their area. Regarding the specific area on the left bank of the Dola river mentioned in the petition, none of this area has been developed for palm. Thousands of hectares of savannah and forest on the left bank of the Dola river are permanently protected. The communities have free access to all the areas to carry out their traditional activities. 3. We are on track with delivery of the projects agreed with the community to support people living in the area. This includes improving local education facilities and building houses for teachers; providing better access to healthcare through a new dispensary and houses for nurses, creating local employment, and the installation of hydraulic pumps to deliver fresh water. <p>The claims in this petition have already been rejected by ROSCEVAC, a NGO network based in Gabon, in national and local media.</p>	Closed
